Career Objective

As a Software Developer specializing in Flutter and holding a Bachelor's degree in Computer Science, I bring over a year of expertise in crafting user-friendly and innovative cross-platform applications. My agile approach and problem-solving acumen make me well-suited for dynamic team collaborations. Eager to contribute to project success, I stay updated on the latest technologies to ensure optimal software development practices.

Work Experience

Flutter Developer Intern, *Bohar Solutions*

06/2023 – present | Jaffna, Sri Lanka

Education

Degree in Bachelor of Computer Science,

Easter university of Srilanka 🔗

03/2019 – 11/2023 | Trincomalee, Sri Lanka

Projects

Nexa Erp Mobile App, *Tool:Flutter , Laravel Rest Api*

08/2023 – 09/2023

Revolutionize your business operations with the cutting-edge "Nexa ERP" mobile app, meticulously crafted for seamless efficiency and unparalleled productivity. Experience streamlined workflows and real-time insights at your fingertips, setting a new standard for business management.
